## Objectives

Goal-driven Front-End Developer with strong skills in HTML, CSS, JavaScript, React.js, and Next.js, and Astro. Passionate about building responsive user interfaces, solving problems through clean code, collaborating on team projects, and continuously learning to contribute to innovative, high-quality web applications.

## Work Experience

### Frontend Developer (2024 Nov - present)

Iono-tech(Full-time, on-site) 🔗

- Developed and maintained **responsive web applications** using **React.js, TypeScript, and Tailwind CSS**.
- Collaborated with designers and backend developers to implement **user-friendly interfaces** and ensure smooth integration with APIs.
- Optimized application performance and accessibility, improving **load times and overall user experience**.
- Built reusable **UI components** and applied best practices in **state management and code maintainability**.
- Contributed to team discussions, providing ideas to enhance features and deliver projects on time.

### Front-End & Cross-Platform Mobile Developer (Trainee)(2024 May-2024 Sep)

Intensive Code Camp – Information Technology Institute (ITI) 🔗

- Completed a **4-month full-time training program** focused on **Front-End Development** and **Cross-Platform Mobile Development**.
- Built and deployed multiple projects including **web and mobile applications** using React, React Native, and Firebase.
- Applied modern development practices: responsive design, state management, performance optimization, and unit testing with Vitest/Jest.
- Gained hands-on experience in **problem-solving, teamwork, time management, and self-learning** through collaborative projects and deadlines.
- Developed a **graduation project (“Eventure”)**, an online event platform with real-time data integration, user registration, and responsive UI.

## Skills

- |                |           |              |                  |
|----------------|-----------|--------------|------------------|
| • React        | • Next.js | • JavaScript | • TypeScript     |
| • HTML5        | • CSS3    | • SASS       | • Bootstrap      |
| • TailwindCSS  | • Git     | • REST API   | • GraphQL        |
| • React Native | • Astro   | • OOP        | • Data structure |
| • Java         |           |              |                  |

## Education

### Bachelor’s Degree in Computer Science (2018 - 2023)

Al-Azhar University 🔗  
Bachelor of Science/ Computer Science  
Faculty of Science , Al-Azhar University  
Overall Grade: Good

## Languages

**Arabic** — Native language    • **English** — Intermediate

# Projects

---

## Todo App [↗](#)

- This Todo application was developed to demonstrate a modern web development stack combining the power of Next.js for a fast and efficient front-end, Clerk for seamless and secure user authentication, and MongoDB.

## Eventure [↗](#)

- Developed an event management platform that allows users to browse, register, and pay for events. Admins can create and manage events.
- Technologies: React, Firebase, Stripe, Tailwind CSS, JavaScript.

## Food Delivery [↗](#)

- Developed an intuitive food delivery app that allows users to browse restaurants, place orders, and track deliveries in real-time.
- Designed a responsive UI to enhance user experience across mobile and desktop platforms.

## Posts App [↗](#)

- Built a full-stack web application that allows users to create, display, and edit posts
- Technology: Reactjs, Json-server, Tailwind css
